## SKILLS SUMMARY

- **Languages:** C++, Python, Kotlin, SQL
- **Tools & Platforms:** Git, GitHub, MySQL, Docker, Android Studio
- **DevOps Tools:** Jenkins, Kubernetes, Grafana, GitHub Actions, Terraform
- **Cloud platforms:** AWS, Microsoft Azure
- **Soft Skills:** Problem-Solving, Adaptability, Quick Learner

## INTERNSHIP

- **Freelancer at Outlier AI** Nov 2024–July 2025
  - Contributed to the training and evaluation of **large language models** by crafting high-quality prompts, **ranking AI-generated responses**, and reviewing model behavior across diverse tasks.
  - Enhanced the performance of large language models by applying subject-matter expertise in **algebra, calculus, data structures**, and **Python**, ensuring high-quality, context-aware AI responses.

## PROJECTS

- **NHRMERS – Smart Healthcare Management App (Kotlin, Firebase, Biometric Auth)** Feb 2026
  - Developed an Android application for healthcare management with secure user login and basic patient data handling.
  - Integrated **Firebase Authentication** for login and signup functionality.
  - Designed a responsive UI using **Kotlin and XML** for smooth user experience.
  - **Implemented basic data storage and retrieval using Firebase Realtime Database.** [GitHub](#)
- **Weather Forecast App (Kotlin, REST API)** Nov 2025
  - Built a real-time weather app using **OpenWeatherMap API** with Retrofit-based network handling.
  - Parsed JSON responses using Gson to display temperature, humidity, and weather conditions.
  - Designed responsive UI with input validation and loading states.
  - Improved user experience with proper error handling for invalid city and network failures.
  - Secured API key using environment-based configuration (local.properties). [GitHub](#)
- **Cloud File Storage System (AWS S3, Lambda, API Gateway)** July 2025
  - Built a cloud-based file upload system using **AWS S3** for scalable and secure storage.
  - Implemented **pre-signed URLs** using AWS Lambda to enable secure file uploads without exposing credentials.
  - Designed REST APIs using **API Gateway** to handle file upload and retrieval operations.
  - Ensured security using IAM roles and controlled access to cloud resources.
  - Tested system with real-time file uploads and verified secure access flow. [GitHub](#)

## TRAINING

- **Data Structures & Algorithms– Self Paced, GFG** April 2024 – July 2024
  - Gained hands-on experience with core data structures: Arrays, Linked Lists, Stacks, Queues.
  - Solved multiple algorithmic coding problems to strengthen problem-solving and logical thinking.
  - Practiced C++ programming using the Standard Template Library (STL) for writing efficient code.

## ACHIEVEMENTS

- **LeetCode** Feb 2025
  - Ranked in the **Top 1000 globally** in a LeetCode Weekly Contest, showcasing proficiency in data structures and algorithms under timed conditions.

## CERTIFICATES / CERTIFICATIONS

- Application Development using Microservices & Serverless | [Coursera](#) Nov 2025
- Social Networks | [NPTEL](#) Apr 2025
- AWS Cloud Practitioner Essentials | [AWS Skill Builder](#) Nov 2024
- DSA Self-Paced | [GFG](#) Aug 2024

## EDUCATION

- **Lovely Professional University** Punjab, India Since August 2022  
Bachelor of Technology - Computer Science and Engineering; CGPA: 6.60
- **R.K Mission School** Uttar Pradesh, India April '2021 - March 2022  
Intermediate; Percentage: 68
- **S. Atma Singh Public Sen. Sec. School** Punjab, India April '2019 – March 2020  
Matriculation; Percentage: 90
