

ABHISHEK TIWARI

+91 8081528852 mr.abhishektiwari04@gmail.com [LinkedIn](#) [GitHub](#) [Portfolio](#)

Professional Summary

- Aspiring Cloud & DevOps Engineer with hands-on experience in AWS cloud services, CI/CD automation, and cloud-native application deployment. Built production-inspired solutions using AWS S3, CloudFront, GitHub Actions, IAM, and GitHub. Passionate about cloud infrastructure, automation, and DevOps best practices.

Experience

Outlier AI

Nov 2024 – Jul 2025

Freelancer

- Contributed to the training and evaluation of Large Language Models by creating high-quality prompts, reviewing AI-generated outputs, and assessing response quality.
- Applied analytical and problem-solving skills in Python, Data Structures, Algebra, and Calculus to improve model evaluation workflows.
- Worked on diverse AI tasks while maintaining consistency, accuracy, and quality standards across model responses.

Projects

CloudOps DeployHub – Automated AWS Portfolio & CI/CD Platform

[GitHub](#) — [Live Demo](#)

Tech Stack: AWS S3, CloudFront, GitHub Actions, IAM, GitHub Secrets

- Designed and deployed a cloud-native portfolio platform hosted on AWS S3 and delivered globally through CloudFront CDN.
- Built an automated CI/CD pipeline using GitHub Actions to deploy application updates directly from GitHub to AWS.
- Configured secure authentication using IAM credentials and GitHub Secrets for deployment automation.
- Implemented automatic CloudFront cache invalidation to ensure immediate content updates after deployment.
- Applied Git-based version control and modern DevOps deployment workflows for continuous delivery.

Cloud File Storage System

[GitHub](#)

Tech Stack: AWS S3, AWS Lambda, API Gateway, IAM

- Built a cloud-based file upload and storage platform using Amazon S3 for scalable and secure object storage.
- Implemented AWS Lambda functions to generate pre-signed URLs for secure browser-to-S3 uploads.
- Designed REST APIs using Amazon API Gateway to manage file upload and retrieval workflows.
- Configured IAM roles and bucket policies to enforce secure access control and least-privilege permissions.
- Validated end-to-end file upload, retrieval, and secure access operations using AWS services.

NHRMERS – Smart Healthcare Management System

[GitHub](#)

Tech Stack: Kotlin, Firebase, Android Studio

- Developed an Android-based healthcare management application to streamline patient and healthcare service interactions.
- Integrated Firebase Authentication and Realtime Database for secure user management and data storage.
- Designed responsive user interfaces using Kotlin and XML to improve usability and accessibility.
- Implemented secure authentication workflows and real-time data synchronization across the application.

Technical Skills

Programming Languages: C++, Python, Linux, Kotlin, SQL

Cloud & AWS: AWS S3, CloudFront, IAM, Lambda, API Gateway, Microsoft Azure

DevOps: Git, GitHub, GitHub Actions, Terraform, Kubernetes, CI/CD

Databases: MySQL, Firebase

Tools: Docker, Android Studio, VS Code

Certifications

- Social Networks — [NPTEL](#)
- Application Development using Microservices & Serverless — [IBM Coursera](#)
- Continuous Integration and Continuous Delivery (CI/CD) — [IBM Coursera](#)
- Monitoring and Observability for Development and DevOps — [IBM Coursera](#)
- Application Security for Developers and DevOps Professionals — [IBM Coursera](#)
- Linux: Processes & System Resource Management for DevOps — [Coursera](#)

Education

Lovely Professional University, Punjab

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

CGPA: 6.60/10

R.K Mission School, Uttar Pradesh

Intermediate

2021 – 2022

68%

S. Atma Singh Public Sen. Sec. School, Punjab

Matriculation

2019 – 2020

90%
